Antibody to Growth Hormone Releasing Hormone/Factor (GHRH/GHRF)
RABBIT POLYCLONAL

Catalog Number: AB-01
Quantity: 100 microliters
Format: Liquid antisera, no preservative
Host: Rabbit
Immunogen: Synthetic hpGRH1-40

Background: Growth hormone-releasing hormone (GHRH) is a peptide that stimulates both the synthesis and secretion of growth hormone.

Specificity & Preparation: This antibody recognizes the human growth hormone releasing hormone/factor. It will also recognize GHRH in zebrafish. Synthetic hpGRH1-40 was used as immunogen. The antibody is routinely tested by dot blot.

Usage: Applications include immunoblotting (ATS in-house; 1:1,000), immunostaining (1:200 to 1:600), immunohistochemistry (fresh or frozen non-fixed sections; 1:800) and radioimmunoassay.

Storage: Store the antibody at 4°C for one month or -20°C in undiluted aliquots for up to one year. Avoid repeated freezing and thawing. Gently spin down material 5-10 seconds in a microfuge before use.
