**Anti-Conjugated Tetrodotoxin
RABBIT POLYCLONAL**

Catalog Number: AB-T15
Quantity: 50 microliters
Format: Lyophilized and reconstituted with deionized water / 50% glycerol
Host: Rabbit
Isotype: IgG
Immunogen: Synthetic Tetrodotoxin conjugated to protein carriers

Specificity and Preparation:

Antiserum previously preabsorbed on protein carriers and purified by ammonium sulfate precipitation. This antibody targets conjugated Tetrodotoxin. **This antibody does not recognize free Tetrodotoxin.** Using a conjugate Tetrodotoxin-Protein Carrier (Pc), antibody specificity was performed with an ELISA test by competition experiments with the following compounds:

COMPOUND	CROSS REACTIVITY §
Tetrodotoxin-G-BSA	1
Tetrodotoxin	1/>100,000

G = Glutaraldehyde, BSA = Bovine Serum Albumine
§ Tetrodotoxin-G-BSA concentration/unconjugated or conjugated Tetrodotoxin concentration at half displacement.

Usage and Storage:

Protocols for potential applications can be found on the website: <http://atsbio.com/support/protocols>. Optimal dilutions should be determined by each laboratory for each application. Store the antibody at 4°C in a dry area for one month or -20°C in undiluted aliquots for up to two years. Avoid repeated freezing and thawing. Gently spin down material before use; 5-10 seconds in a microfuge should be adequate.
