

**Anti-Conjugated Pyridoxal**
RABBIT POLYCLONAL

Catalog Number: AB-T149
Quantity: 50 microliters
Format: Lyophilized and reconstituted with deionized water / 50% glycerol
Host: Rabbit
Immunogen: Synthetic Pyridoxal (rd) conjugated to bovine serum albumin (BSA)

Specificity & Preparation: Antiserum previously preabsorbed on protein carriers and purified by ammonium sulfate precipitation.

This antibody targets conjugated Pyridoxal (reduced form). **This antibody does not recognize free pyridoxal.** Using a conjugate Pyridoxal (rd)-Protein Carrier (BSA), antibody specificity was performed with an ELISA test by competition experiments with the following compounds:

Usage: Applications include ELISA (1/2,000-1/5,000) and immunohistochemistry / immunocytochemistry (frozen sections; 1/1,000-1/2,000).

Storage: Store the antibody at 4°C for one month or -20°C in undiluted aliquots for up to one year. Avoid repeated freezing and thawing. Gently spin down material 5-10 seconds in a microfuge before use.

COMPOUND	CROSS REACTIVITY §
Pyridoxal (rd)-BSA	1
Pyridoxal-BSA	1/>50,000

BSA = Bovine Serum Albumin
§ Pyridoxal-BSA concentration/ conjugated close structure concentration at half displacement.
