

Rabbit IgG (H&L) Sheep Polyclonal
ATS-SELECT SECONDARY ANTIBODY

Catalog Number: AS-276
Quantity: 2 milligrams
Format: IgG, Liquid (sterile filtered)
Host: Sheep
Immunogen: Rabbit IgG whole molecule

Background: RABBIT IgG (H&L) (SHEEP) Antibody generated in sheep detects specifically rabbit IgG whole molecule. Anti-rabbit IgG antibody is ideal for investigators involved in serum protein component research.

Specificity & Preparation: Anti-RABBIT IgG (H&L) (SHEEP) Antibody was prepared from monospecific antiserum by immunoaffinity chromatography using Rabbit IgG coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Sheep Serum, Rabbit IgG and Rabbit Serum.

Usage: Anti-RABBIT IgG (H&L) (SHEEP) Antibody has been tested by ELISA and western blot and is suitable for immunoblotting (western or dot blot), ELISA, immunoperoxidase electron microscopy and immunohistochemistry as well as other peroxidase-antibody based enzymatic assays requiring lot-to-lot consistency.

ELISA 1:40,000 - 1:200,000

Immunohistochemistry 1:2,000 - 1:10,000

Western Blot 1:4,000 - 1:20,000

Working dilutions must be determined by end user.

Storage: Store vial at 4° C prior to opening. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Expiration date is one (1) year from date of receipt.
